

LEVEE WORKERS DISCOURAGED;
THE ELEMENTS AGAINST THEM

Rain Continues to Come Down in Torrents and the River Still Rising.

A DESPERATE FIGHT IS BEING WAGED DAY AND NIGHT TO SAVE THE REMAINING LEVEES FROM RAVAGES OF THE FLOOD—BIG FORCES EMPLOYED AT NEW ORLEANS TO SAVE THAT CITY FROM BEING FLOODED.

By Associated Press. New Orleans May 6.—"It looks like the elements are against us." This was the statement this afternoon by Major Kerr, chief of the Louisiana state board of engineers, and sums up the principal chapter of the story of the desperate fight being waged day and night to save Louisiana's remaining levees from the ravages of the Mississippi river flood water.

The situation continues threatening but there were no reports today of breaks in the Mississippi levees and engineers expressed a hope of final victory.

Hard rains fell this morning and last night all along the river as far north as Texas. Increased forces of laborers were sent today to the weak sections between Morganza and New Roads and others to Amite, five miles north of there to work on a bad stretch of eight thousand feet. The levees are still holding tonight at Baton Rouge.

The water from the Torras crevasse today reached Morganza and tonight is a foot deep in some parts of town. The levee on the west side of the Atchafalaya river at Elbia, six miles north of Melville, sloughed off this afternoon, flooding a rich territory. Along Bayou Des Glaises the situation continued more alarming and at Simmesport the people are fighting hard to prevent a break in the levees protecting the town.

TO SAVE NEW ORLEANS. In a steady downpour of rain several hundred laborers continued the fight today to strengthen the levees in the third district of New Orleans, extending from Flood street, 55 miles below Canal street, to a point near the big plant of the American Sugar Refining Company. New reinforcements are being constructed in front of the levees at some of the weak places and near Jackson Barracks a second line of new reinforcements are being put in between the levee and this new reinforcement, dirt is being filled in, but this process of widening the embankment is very slow.

The weak stretches in the third district extend along almost a mile of the levee front. The water is only three to four feet of reaching the top of the levee, but the protection embankments are not standard grade levees. In places they are only 4 or 5 feet across at the top and extend less than 30 feet from the water's edge on the land side.

In front of the Ursuline convent numerous crawfish and muskrat holes have developed and at these points the outside of the levee has been blanketed with soft earth, tamped down with the backs of shovels.

Besides this several thousand sand bags have been placed along the tops of the levees in the commercial district, 10,000 additional sacks have been filled and today these are being distributed all along the water front. These sacks are being used to top the levees and stop overflow water. At Canal street the sand bags are piled three deep and at Esplanade street "engineers" of the bags hold back the water, which is 4 to 6 inches over the docks.

Large forces of men are continuing the work of strengthening the weak places in the third district. At Carre, 25 miles north of New Orleans on the city side of the river and today Capt. Sherrill, of the United States engineers, placed 500 men and 500 bags of sand on a week's work. A stretch of 8,000 feet at Westwego, five miles above New Orleans, on the Algiers side of the river. Captain Sherrill says he has considered the Red river south, where federal and state engineers and Louisiana state officials have an army of approximately 8,000 laborers at work in a desperate and determined effort to save the remaining levees.

HEAVY RAINS ARE RISING. The river rose at all points south of the Red river, a rise of two-tenths of a foot being recorded at New Orleans during the night. The rise at Baton Rouge was two-tenths for the past

Special to The Journal.

Marianna, May 6.—Eleven members of Company C, F. N. G., came here this evening to guard Lee Collins, the man charged with killing Deputy Sheriff Dan Hansford, of Calhoun county, last November. Collins escaped for a while and was captured at Live Oak some months later and carried to Tallahassee for safekeeping. When court convened recently at Blountstown a change of venue to this county was secured. Collins was brought here and arraigned today on the charge of murder, pleaded not guilty and his case was set for next Tuesday. It was feared that the dead officer's friends might attempt to take the soldiers in their own hands and troops were sent over with him.

The soldiers will return to Tallahassee on the midnight train tonight carrying the prisoner with them to be kept until the day of his trial. Upon his return next week troops will be on duty here until the case is disposed of. This step was taken as a matter of precaution for the protection of the negro.

By Associated Press. Withelville, Va., May 6.—The trial of Floyd Allen, the commonwealth today continued its effort to show that the Allen gang had conspired to "shoot up the court" at the trial of the late J. B. White. The prosecution placed on the stand M. C. White, a member of the jury who found Floyd Allen guilty in the Carroll county case. White declared he had seen Floyd and Claude Allen hold a whispered conversation just before the shooting occurred. When the firing began, White said he dropped to his hands and knees and crawled out of the court room.

Thoroughly terrified, White jumped into the fireproof vault in the clerk's room and remained there until the shooting had ceased. He declared he did not see the shooting.

DECISION DISMISSES CLAIMS
AGAINST THE GOVERNMENT

By Associated Press. Washington, May 6.—About eighty claims against the government, based upon the alleged use of private lands in the construction and strengthening of levees along the Mississippi river will be dismissed because of a decision announced today by the United States court of claims in a case instituted by Mattie Jackson and others. The court held that the United States in exchange for its authority over navigable streams had the right to prevent erosion and preserve the natural identity of streams, however injurious the consequences resulting from such procedure; that the ownership of riparian lands on navigable waters was always subject to the consequences of governmental improvements in the aid of navigation.

FORTY OTHERS WERE INJURED, SOME DANGEROUSLY, AND WERE CARRIED TO HATTIESBURG FOR TREATMENT—TWO DEAD BABIES AND THREE OTHER UNIDENTIFIED VICTIMS ARE STILL IN THE DEBRIS.

By Associated Press.

Hattiesburg, Miss., May 6.—Ten persons were killed when the first section of the New Orleans & Northeastern railroad Confederate Veterans Special, en route from Texas to the reunion at Macon, Ga., was derailed early today at a trestle a mile south of Eastabuchus, Miss. The locomotive and five cars were wrecked and forty persons were hurt. Two unidentified dead babies and three other victims had not been taken from the debris up to nightfall. They are believed to be veterans. Engineers W. A. Wood, of Meridian, Miss., and two unknown machinists were killed. The derailed was on a straight line and the train was running about thirty miles an hour. The dead were brought here.

The identified dead are: Mrs. J. L. Cameron, Henderson, Texas; J. S. Downing, Atlanta; W. A. Wood, engineer, Meridian; Mrs. Chas. Holmes, Big Springs, Texas; C. C. Jones, negro fireman. The scene immediately after the crash was particularly distressing on account of the cries of the injured. The aged veterans who were uninjured worked untiringly to extricate their less fortunate companions. When the engine and tender left the track at a short trestle they were followed by a baggage car, day coach and three tourist sleepers. Various organizations are giving the injured every attention here.

Five doctors and three nurses reached the scene of the terrible accident within half an hour after the news reached here. Living comrades of the dead and injured, however, did not forget the lessons they learned on the field of battle and the attention to the dead and ministrations to the wounded were prompt. With the assistance of the members of the train crew whose lives were spared, the passengers, who soon returned to the cars that stood on the tracks and had gathered together the remains of as many of the dead as it was possible to reach before a wrecking derrick could reach the scene to lift the debris from those pinned beneath it.

HARMON RECEIVES ONLY FOUR VOTES TO THE STATE CONVENTION—WOODROW WILSON THE ONLY CANDIDATE TO GET INSTRUCTED DELEGATES FROM SOUTH CAROLINA—RESULT IN TEXAS REMAINS IN DOUBT.

By Associated Press.

Baltimore, May 6.—Champ Clark and Roosevelt carried Maryland today. The incomplete returns up to 12:15 a. m. from all counties of the state indicate the vote for Roosevelt is 65, Taft 63, Clark 60, Wilson 33, and Harmon 4, uncertain 23. The majority necessary to control the state convention is 65.

WILSON PROBABLY HAS
CARRIED SOUTH CAROLINA

By Associated Press. Columbia, S. C., May 6.—Forty-one counties out of forty-four held Democratic conventions today. On the presidential preference vote Wilson received 100 votes and endorsements from many counties and there was no expression from other counties.

WILSON APPEARS TO BE
THE FAVORITE IN TEXAS

By Associated Press. Dallas, Tex., May 6.—It will require the county conventions tomorrow and Friday to decide whether Taft or Roosevelt for the Republicans and Wilson or Harmon for the Democrats will receive the Texas delegates to the respective national conventions. Saturday's precinct primaries showed Wilson strength that surprised the Harmon leaders, making him the favorite for the county conventions tomorrow on the face of the returns. The Harmon people point out, however, that the full result of the primary voting will not be known until the county conventions meet and the claim that it is likely to take the state convention under a final choice.

The result as between Taft and Roosevelt is left even more in doubt by the precinct primaries, whose only apparent up to this forenoon has been to indicate a close race for delegates on the Republican.

Col. Cecil A. Lyon, Republican national committeeman from Texas and Roosevelt leader for this state, issued a statement today claiming 12 out of the 16 congressional districts for Roosevelt and declared that Roosevelt probably would carry all the districts. Col. Lyon also denounced an attempt in Saturday's convention in his home district at Sherman to disqualify him as a citizen of Texas on the grounds that his wife is not a resident of Texas.

Mrs. Lyon resides in Colorado Springs, Colo., on account of her health. Col. Lyon, however, has resided in Sherman, Texas, for thirty-six years.

PREDICTIONS ARE THAT

By Associated Press. Walla Walla, Wash., May 6.—Sentiment among delegates to the Democratic state convention here today lies between Speaker Clark and Woodrow Wilson, the prediction favoring the former. Clark leaders claim a majority of from 75 to 100 of the 719 delegates.

MISS EDMANDS IN

Fiancee of Rev. C. V. T. Richeson Believed to Be a Worker in God's Providence House in Broome Street.

By Associated Press. New York, May 6.—All attempts to fix the identity of "Miss Edwards," a worker in God's Providence House in Broome street, today were futile. They were aimed at identifying "Miss Edwards" as Miss Violet Edmands, whose fiancee was Rev. Virgil Richeson.

According to stories published in Boston, the "Miss Edwards" who has been working among the children in the Bowery mission is none other than Miss Violet Edmands, fiancee of the Rev. C. V. T. Richeson, the former Baptist minister who is to be executed this month for the murder of Avis Linnell.

CANDIDATE FOR CONGRESS NOT ONLY LED, BUT CARRIED COUNTY BY DECISIVE MAJORITY—VOTE WAS 731—MAYS WAS LOW MAN.

Emmett Wilson not only led in Santa Rosa, but he carried the county with a majority over both opponents. The vote on congressman now stands:

THE STANDING.			
County.	Flournoy	Mays	Wilson
Escambia	491	665	1386
Santa Rosa	821	254	731
Holmes	278	439	610
Washington	486	278	616

Wakulla	172	521	281
Totals	3291	6096	6857
Incomplete.			

In the above table, Calhoun is the only county that is yet incomplete, but it is nearly complete so that the official count will not change these figures very much. With these figures, Emmett Wilson has a lead over Dan H. Mays of 761 votes. The vote received by Congressman Mays is 6096. Opposed to this is a total vote for Col. Flournoy and Mr. Wilson of 10,143. Democrats who thus indicate that they want a new congressman from the Third district. The majority against Mays is 4,052.

These figures speak louder than words can do of the wish of the voters of the district for a change, and indicate that the change is to be made. In introducing Mr. Wilson to the audience, Mr. Loftin explained the purpose of the club. He said the voters of the Third congressional district had unmistakably expressed themselves as desiring to send another man to the national congress, and that he knew the honor could be bestowed upon no worthier shoulders than Emmett Wilson. "The people want a change," said Mr. Loftin in closing his introductory speech, "and it devolves upon us, one and all of the entire district, to elect this splendid young Democrat who will represent the district and at all times reflect credit upon the entire state."

Enthusiastic Supporters of Popular Candidate for Congress Meet.

SCOTT M. LOFTIN IS ELECTED PRESIDENT AND W. CHIPLEY JONES SECRETARY—MR. WILSON, AS WELL AS A NUMBER OF HIS ACTIVE SUPPORTERS, WHICH WERE LOUDLY APPLAUDED.

Characterizing Emmett Wilson as a man possessing the real qualities and stature of statesmanship, a man able, energetic and determined to accomplish something for the Third district, and in view of the recent expression of the voters in the district for a change in their representative in congress, a number of able speakers last night aroused tremendous enthusiasm at the organization of an Emmett Wilson Club.

Several hundred earnest and enthusiastic supporters of the eloquent young Democrat met at the court house last night and organized the Emmett Wilson Club, the purpose of which is to further his candidacy and to bend every effort to have him nominated on the 25th of this month. Scott M. Loftin was elected permanent president of the club and William Chipley Jones was elected permanent secretary. Both Mr. Loftin and Mr. Jones expressed their hearty appreciation of the honor bestowed upon them and promised loyal, constant and vigorous support of the young Democrat whose candidacy the club proposes to espouse.

In introducing Mr. Wilson to the audience, Mr. Loftin explained the purpose of the club. He said the voters of the Third congressional district had unmistakably expressed themselves as desiring to send another man to the national congress, and that he knew the honor could be bestowed upon no worthier shoulders than Emmett Wilson. "The people want a change," said Mr. Loftin in closing his introductory speech, "and it devolves upon us, one and all of the entire district, to elect this splendid young Democrat who will represent the district and at all times reflect credit upon the entire state."

MR. WILSON SPEAKS. Mr. Wilson was visibly affected by the eulogy of himself and when he arose to speak he was greeted with applause and shouts from every seat in the building. When he began to speak the applause broke out anew.

The speaker did not go into the questions at issue in the campaign. He said he had made them clear to the Executive committee of the club before and he considered it inappropriate at the time to go over them at this meeting. He asked to be allowed to speak about the subject which is nearest his heart—the expression of confidence in him that the voters of the district made plain on last Tuesday. This vote Mr. Wilson said he appreciated more than any other. He realized, he said, that it was not a personal compliment to him, but was an endorsement of the principles which he believed in as well as a desire on the part of the voters to have a representative from the Third district who would represent them actively and aggressively upon the floor of the house and in the important committees of that body.

Mr. Wilson said he had issued a platform which is familiar to the voters of the district. This he says does not contain anything that is not a concise statement of the things he believes in and will work to accomplish. He said he wanted to go to congress because he wanted to do some service for his people, that he would not seek appropriations alone, but would take part in the debates on the great questions which will affect the people of today, their children and their children's children.

Mr. Wilson said he would not attempt to criticize Congressman Mays' record because he had already done so, but he pointed out the fact that the representative from the Third district had never raised his voice upon the floor of the house in the advocacy of any of the vital questions of the day.

If elected, and he said he felt confident that he would be elected, Mr. Wilson said he would bend every effort of his life to represent the people as they deserve to be represented. He promised to study the questions which affect the people and that as the days go by he hoped to grow in experience and efficiency and to render good service to a people who deserve it.

The splendid vote which was given Mr. Wilson in every county of the district he said pleased him beyond expression, and he promised that the trust of the people should never be betrayed, abused or neglected.

OTHER SPEAKERS. A number of the club members spoke in favor of Mr. Wilson's candidacy. C. E. Dobson urged individual effort on the part of the members.
